

## **NEWS RELEASE**

SEPTEMBER 15, 2003, FOR IMMEDIATE RELEASE

CALGARY, AB: GRANT METAL PRODUCTS has announced the acquisition and installation of a new CNC unit that greatly expands the company's service offering. The machine is 14 ft. long and offers 320 tons of available pressure. The unit enables Grant Metal to process projects that require forming of heavier material like .250 aluminum and has the capacity to bend and full form 12 ft. sheets. State-of-the-art technology and computer programming provides greater accuracy and precision operation. Complete information is available by calling GRANT METAL PRODUCTS at (403) 590-8000 or 1-800-672-6088.
